12th grade Technology Student
Association Vice-President

Leadership Responsibility

As the Historian for the Best Buds Club, I took photos
and videos of the activities completed by our chapter
during the 2019-2020 school year. I also put input
into which activities and events we would do during
the 2019-2020 school year.

As the Treasurer for the Technology Student
Association, I was responsible for budgeting and
fundraising for our chapter during the 2019-2020
school year. Due to the absence of our President during
the TSA meeting at Swift Creek Middle School, I was
the main person that took the responsibility of
managing, aiding, and representing our chapter of TSA.

Community Service/Volunteer Involvement Experience

8th grade Tutor (General Math)
9th grade - 10th grade Chesterfield County Food Bank
11th grade Neighborhood Trash Pickup
12th grade Tutor (AP Computer Science Principles, AP Calculus)

Community Service/Volunteer Involvement Responsibility

During my volunteering time at the Chesterfield County Food Bank, I was responsible for shipping food from the main building to the cars of the people who needed it.

During the 11th grade, I cleaned up trash and recyclable items from my neighborhood and my local park and disposed of them properly. I also picked up trash from the bus entrance of Matoaca High School.
